About Me

I'm a passionate software developer with a solid foundation in web and backend development. I excel in problem-solving and teamwork, always eager to learn and innovate.

Professional Experience/ Projects

E-commerce Footwear Store

- It is a group projects of three members assigned by our college St Xaviers College.
- It is based on HTML, CSS, JavaScript, Bootstrap combined in Frontend and PHP and MySQL in Backend.
- It is a basic e-commerce store with all necessary features.

Weather - by Om

- It is a Responsive web application-based HTML, CSS and JavaScript project
- It is a simple Weather application that uses API Integration from OpenWeatherMap.

Console-ecomm

- It is a Java based console application.
- It shows basic inventory management features like updating, inserting and placing order to perform all necessary actions.

Digital Menu

- It is a responsive web application-based HTML, CSS, JavaScript, PHP and MySQL project.
- It digitalizes the restaurant with digital ordering.
- This feature reduces haze free order placing in the restaurants minimizing the waiting time of the customers.

Digital Signature

- A HTML, CSS and JavaScript based Application that helps users to download their signature done digitally on our website.

Interests in Extra Curricular Activities

- Has a keen Interest in Sports like Cricket, football and many other games.
- Little Interest in online games.
